

NFPA 70E ELECTRICAL ARC FLASH WEBINAR - REQUEST FORM

The Hilgeman Group's team of arc flash safety experts and professional electrical safety trainers has developed a FREE webinar to help various organizations gain a better understanding of:

- Electrical arc flash safety (common causes, mistakes)
- How OSHA is enforcing the lack of arc flash safety programs
- Cost-effective strategies for achieving compliance
- OSHA's requirements for Qualified-Level Electrical Safety Training
- The effects of arc flash incidents (accident investigation case studies)

There is no fee for this one (1) hour webinar. The webinar can be tailored and modified to fit your company's specific needs. Many companies use this free webinar as a way to jump start their efforts to develop their arc flash safety programs.
